Welcome to PaperPlaza, the International Federation of Automatic Control's Conference Submission and Review Management System

• **Login NOT required:** During initial submission cycle you "do not" need to login to the system to submit a paper, session proposal, or other contribution. To submit a paper to the conferences listed below, you may follow the "Submit a contribution" link.

• **Login required:** For **Administrative or Editorial activities**, to submit a review or to update/reupload your paper, or to see the reviews of your paper, and to submit the final version of your paper you **MUST** log in. Once logged in, kindly use "Access" link to switch to the submission/reviewing workspace.

• **Personal Information:** Two additional fields (Employment status and Experience) have been added to your personal profile. Kindly update your personal information and fill these two fields. This information is requested to assist in allocating papers to potential reviewers with an appropriate level of background experience.

iThenticate Scan Results

ACA 2025 has access to the CrossCheck database. [Read more about the CrossCheck initiative to prevent scholarly and professional plagiarism.](#)

Similarity scores and scan reports are generated by an external provider (iThenticate) and not by the conference.

The scan reports are stored on the iThenticate servers and not downloaded to the conference submission system servers. Eventually the reports are deleted from the iThenticate servers at a time determined by conference and provider policy, after which they are no longer available.

Please check the on-line report to understand how the similarity score was determined and which sections of your paper may need changes.

The score and report are provided to assist you in revising your manuscript, if necessary.

The conference will not be able to provide you a score or a report for the revised manuscript.
